## Customer Reviews

In-law relationships is a perfect book to purchase in preparation for your big day! It’s a great read for you and your future spouse to become aquatinted with the importance of becoming friends with your in-laws.

Many of us from time to time need some good healthy advise on how to relate better with family and in-laws. This book can help! I was having some major problems with an in-law and so I ordered this book, read it and applied a couple of the principles to my problem relationship and "Bingo," improvement! Easy read, very good advice on getting along with family and in-laws in particular.

My husband and I read the book together.It was very informantive and will help in all relationships.A Must read book.

I learned so much about loving and being fair with people. I totally was off the mark with my in laws and how I handle things. I will be putting into use the ideas he gives in this CD.

Great insights in a field that has very little study material available. Helpful!
