Working Memory Activities

Synopsis

This Working Memory Activities book features a variety of highly engaging and inventive exercises that will help to improve your students' memory abilities. To be efficient learners, children need to hold information in their memory just long enough to sort and manipulate it. Children with poor working memory skills may struggle to hold onto, and effectively 'work', newly learnt information so that it ultimately fails to be retained. In the classroom, this difficulty may present as students missing out on vitally important verbal information and struggling to sequence newly learnt material in a meaningful way. The activities and instructions in the workbook have been designed so that students are encouraged to listen and attend to a specific sequence of instructions. Each sequence needs to be held in the students' memory systems long enough to manipulate the information so that they can successfully complete each individual exercise. The workbook has seven sections for your students to practice their memory skills. Each section has a series of activities that are graded from entry to intermediate to advanced. Importantly, each section has a record sheet to chart student progress as they work through the activities. The Working Memory Activities book was formed from games and strategies that the author has developed over the last several years to engage children when working on their memory and thinking skills. This 178 page resource will be of high interest to classroom teachers, speech-language pathologists and parents of children with language and literacy difficulties.

its good for the moment, love big font and spread out pages.pages 31, 35, 39 could be larger

pictures to fit the page , had to enlarge the pic.the pictures p48 could be coloured and p85, or left blank so students can colour in...However there are a number of errors eg and I think a more global vocab list could be used eg, on p22 dog should be replaced with puppy, as dogs can be same size or bigger than a sheep.also in NZ we havent heard of goliath beetle or midge. (I changed it to beetle and fly) and also animals i changed warthog to hog, and mongoose to goose.on p26 I didnt like single hair, (changed to strand)On p31 and 35, 39, please make the picture to fit the page, its too small.p33 2.the left front window green and 5. the left front window, orange??p34 i took out 3. 'at the rear of the house' not needed, adds to confusion.p37 3. i changed 'rear legs' to back legs.4. cow's leg brown' i changed to cow's front legs brown5. 'main' should be 'mane'5. cows left ear is mentioned in 1, as well5 i changed cows right ear blue, to cow's left horn blue.p38 3 cows front legs green and also in 1.
