# Textbook Of Biochemistry For Dental, Nursing, Pharmacy Students

## Synopsis

The science of biochemistry is expanding at a very fast speed. However, the students of Dental, Nursing and Pharmacy do not need what is presented in voluminous books; therefore, the need of a book which can provide them what is required the most. Though the main framework of 2nd edition has been retained, extensive revision of certain portions has been made in this 3rd edition. New chapters like Recombinant DNA Technology and Biochemistry of AIDS have been added. Topics like Protein Synthesis have been rewritten keeping in view the recent advances. Points to Remember page and MCQs at the end of each chapter have been retained to help the readers/students for last minute revision of the subject and to recapitulate the main points. No doubt Dr MN Chatterjea's Textbook of Medical Biochemistry gives whatever the students require but the students find it quite bulky and a lot of information does not pertain to their particular discipline. The students of Dental, Nursing and Pharmacy will find the present book by the same author as handy with lucid and easily comprehensible language. Dr (Brig) MN Chatterjea, is a renowned author. His Textbook of Medical Biochemistry is very popular all over the world. It is considered the most standard textbook on the subject. It is hoped that the students will find this book equally good and concise.

1. Chemistry of Carbohydrates
2. Chemistry of Lipids
3. Chemistry of Proteins and Amino Acids
4. Plasma Proteins Chemistry and Functions
5. Chemistry of Nucleotides
6. Chemistry of Nucleic Acids
7. Chemistry of Enzymes
8. Biological Oxidation
9. Vitamins
10. Chemistry of Haemoglobin
11. Digestion and Absorption of Carbohydrates, Lipids and Proteins
12. Metabolism of Carbohydrates
13. Metabolism of Lipids
14. Metabolism of Proteins and Amino Acids
15. Integration of Metabolism of Carbohydrates, Lipids and Proteins
16. Metabolism of Purines and Pyrimidines
17. Protein Synthesis
18. Recombinant DNA Technology
19. Detoxication
20. Free Radicals: Chemistry and Functions
21. Bile Pigments: Metabolism
22. Hormones: Chemistry and Functions
23. Metabolism of Minerals and Trace Elements
24. Diet and Nutrition: Energy Metabolism
25. Water and Electrolyte Balance and Imbalance
26. Acid-Base Balance and Imbalance
27. Renal Function Tests
28. Liver Function Tests
29. Mechanism of Action of Drugs
30. Biochemistry of AIDS.

## Book Information

Paperback: 616 pages

Publisher: Jaypee Brothers Medical Publishers (P) Ltd.; 3 edition (August 1, 2009)

Language: English

ISBN-10: 818448531X

ISBN-13: 978-8184485318

Product Dimensions: 1.2 x 7.2 x 9.2 inches

Shipping Weight: 2.2 pounds
