Single Mom: The Ultimate Guide To Single Parenting: How To Be Successful At Single Parenting And Raise Your Kids Easily (Single Mom Books)

Synopsis

Do you really want to be a happy and successful single parent this year? Today only, get this bestseller for just \$2.99. Regularly priced at \$9.99. Read on your PC, Mac, smart phone, tablet or Kindle device. As a single parent, Iâ€™ve learned a lot about the challenges and responsibilities with being a single parent. If youâ€™re anything like me, you want the best for your children and don't want to give them limitations on their special abilities. Itâ€™s imperative to learn the techniques and skill-sets that a single parent needs in order to keep the kids in order. The most challenging thing being a single parent is time management. We no longer only take care of ourselves. We have a much bigger responsibility than the â€œsingle person.â€• In this book you will learn the simple techniques that it takes for you to maintain an organized family while having fun doing it! If you are organized with your life and your children, you are increasing the odds of success in your family. Don't miss this great opportunity to improve your family life, and download this book right now for only \$2.99!

Here Is A Preview Of What You'll Learn...

- How to Raise your Children
- How to Save Money Without Even Thinking about it
- How to Take Care of Yourself
- How to be a Happy Single-Parent Forever
- How to Balance your Work and Single-Parenting
- How to Organize Your Life

Much, much more! Download your copy today!

Check Out What Others Are Saying..."This book has helped me so much with being a single mom! I was looking for some guidance in a dark time and this book did the trick. It taught me what to do as a single parent and how to live a happy life with my child, thank you!" -- Jenny C

â€œThis book emphasizes on the positives of single parenting. It's a guide that gives easy steps to take to raise a child on your own. It's a difficult task to be successful when it comes to raising a child as a single parent, but this book was really encouraging, and motivating.â€• â€• " Jess â€œThis is a great book for those of us who just want the info simple and straight forward. Awesome tips on balancing you life to ensure you have the most you can give to your child and a great chapter about working from home. I recommend this book to all my single friends!â€• -- Carly

Customer Reviews

Without the benefit of a brick and mortar bookstore, I rely heavily on reviews, and I shy away from anything with poor reviews, or books and projects with only a few reviews -- those positive comments are likely friends and family members of the author, just trying to help. I made an exception because this was a good price, and I was able to use some Prime credits to buy the book, and because I happen to be amid an emotionally challenging time with my 6-year-old. I was looking for some real world help, and "The Ultimate Guide to Single Parenting" was no more than a childish essay. The disappointment made an already difficult situation sting even more. The "advice" within amounts to empty platitudes: "don't go out to eat - you can save money that way," and "at least you don't have to argue with a spouse about the best way to raise your child," and so forth. There are far, far better resources on Pinterest (and we all know that Pinterest has its own issues!). This e-pub is inexpensive, but not worth your money. I hate to give a negative review, but I'd like to spare others the letdown I experienced.

This was as good read, lots of info for the single parent. I found the book to be informative and well written. I especially liked the the chapter on saving money, that is something a single parent is always looking to do. It's not easy being a single parent, but this book has some great tips in it. A good read for anyone who is a single parent, is friends with one or in a relationship with one.

This is a great book for those of us who just want the info simple and straight forward. Awesome tips on balancing you life to ensure you have the most you can give to your child and a great chapter about working from home. I recommend this book to all my single friends!

This book help me so much with being a single mom! I was looking for some guidance in a dark time and this book did the trick It taught me what to do as a single parent and how to live a happy life with my child thank you!

Great stuff for single parents out there! Being a single parent takes a lot of courage to face its challenges. But a great reward comes in when you were able to raise your child almost perfectly! This book outlined the benefits of being a single parent and its challenges. It has also tips on how to balance your work and to take care of yourself, which is very important. Highly recommended!
