I am awestruck that in today's time and age when the term "Gentleman" is miss-used without a thought on a daily basis and the meaning has been lost in the mists of time, someone actually has written a book on "how to be" one. All I can say is thank you, thank you, thank you. I do hope that a lot of "gentleman" will actually read this wonderful book. Parents please take note, get this book for your sons to learn what the term "gentleman" means and for your daughters to learn what to expect from a true gentleman.

Being a gentleman is a great quality. Wherever you go, you'll be respected by all if you have some simple manners and etiquettes. This book is really awesome in describing the ways for where and how to show your etiquettes, like what to say, what to wear and so on. This book will teach you some simple techniques for being a self-confident, smart guy.

This book is great for any guy that wants to be more of a gentleman. This book fulfills its goal in providing helpful tips and guidelines to certain situations. As I was reading it, I noticed that I started to develop an attitude that I could address even more situations that were discussed because the book did a good job of teaching principles instead of just addressing certain situations. The words are in large print and it is generic enough for him to be able to read it on his own and get it. So it is perfect for him and he can finally see that I am not just making stuff up.

Being a gentleman is one of the most attractive character trait a man can possess. This eBook will teach you how to develop the traits of a real gentleman and become a respectable member of our society. Neil Schreibek did an amazing job in writing this eBook because many of our man will benefit from this. It has a detailed explanation on how you can transform yourself to be a better person. Becoming a gentleman is a choice because you will develop a positive outlook in life. It is a decision you can make for yourself to create a positive impression to your surroundings. How To Be A Gentleman is an exceptionally written book! I like that this presents the matter really well and tells you how to achieve your goal successfully: to develop a skill that will make you truly a gentleman. I was surprised that this book exists because where I come from, being gentleman is not something you should learn now, it should have been taught to you by your family a long time ago. But upon reading this book, I have learned that there is still so much to learn about being a gentleman.

Something definitely can be learnt from this book. The author through this book has laid out the necessary steps to be taken in order to become a real gentleman. The information given can be adopted in one's lifestyle because gentleman is more than meets the eye. A highly recommended reading on manners and behavior of a gentleman.

This book is so informative to me even though I am married. The tips inside this book on how to be a gentleman is so useful and important specially for single men, for parents like me and even for woman who is searching for a man of her life. This guide is so interesting and easy to follow and check for yourself. Many teens nowadays seems not so interested in this old way of being a gentleman. This book will surely let all man to be in the right place for a woman's love and caress.

What is your opinion about masculinity? Do you think that being manly is about chasing women, drinking beer and driving fast cars? Or are you more of a mellow and determined type? Whatever your preferences might be, you'll definitely love this book. The authors have defined the concept of being a gentleman very well. You'd be surprised about what it actually means to be masculine. If you want to be like James Bond or Jason Bourne, then you should read this book. It should be mandatory for all men, especially youngsters.
